

Naveed Ishtiaq

SOFTWARE ENGINEER

OBJECTIVE

To secure a challenging Software Engineer position where I can apply my extensive experience in problem-solving abilities, and knowledge of modern technologies to create innovative and efficient software solutions, contributing to the success and growth of the organization.

EXPERIENCE

WEB DEVELOPMENT

July 2023 – Present

I possess a strong foundation in frontend development, with a particular focus on React. My experience encompasses building dynamic and interactive user interfaces using React components, state management, and props. I have a keen eye for design and user experience, and I thrive in creating efficient and scalable frontend solutions.

DATABASE PROJECT: CAR RENTAL SYSTEM

Oct 2022 – Feb 2023

Designed and implemented a database system for a car rental company using MySQL, developing features for vehicle inventory management, customer reservations, and rental transactions. Created complex SQL queries to generate reports and insights for business decision-making, ensuring data normalization and integrity to optimize database performance.

INTERNSHIP

Aug 2023 – Oct 2023

As a Web Development Intern at PENTA Squad from August to October 2023, I honed my skills in WordPress, creating dynamic e-commerce websites. I collaborated effectively with the team, delivering projects on time while learning about HTML, CSS, and e-commerce fundamentals. This experience solidified my passion for web development and equipped me with practical industry knowledge.
